6th - 13th April 2006

Male Desert Sparrow Auberge Yasmina, Erg Chebbi 11th April.

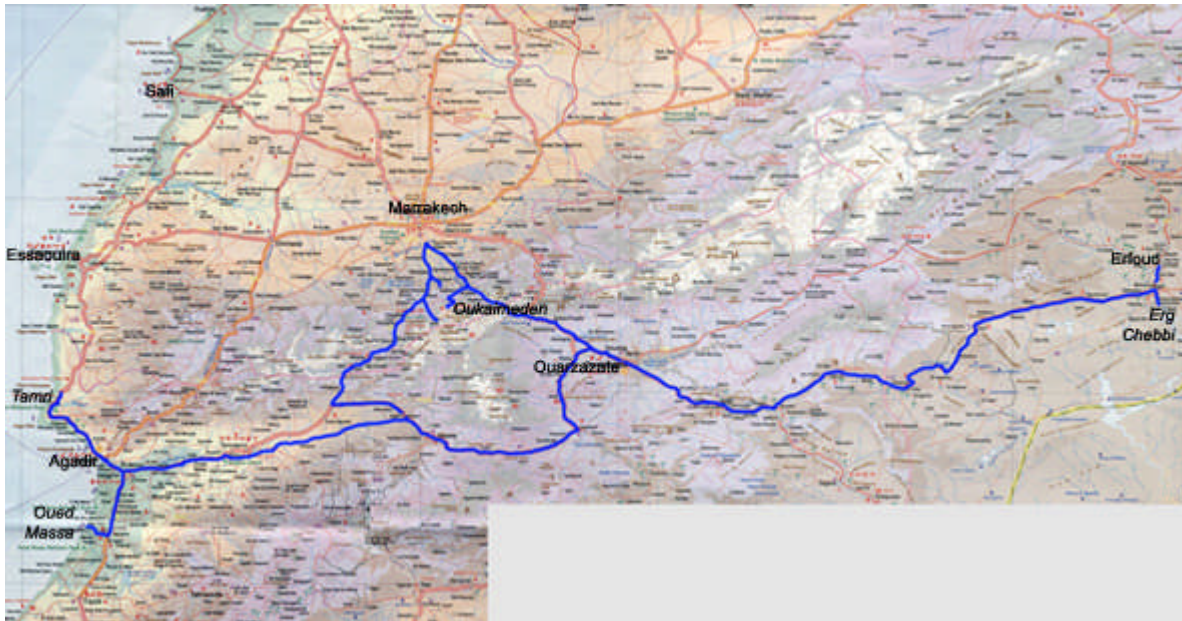

*Stefan Cherrug
Per Anders Bertilsson*

General

We booked our tickets through Ving agency. We paid 1270 €, including hotel (Tivoli, Agadir) and breakfast. During our round trip we stayed at hotels in Oukaimeden, Ouarzazate and Erg Chebbi. These accommodations were not booked in advance, however we had no problems finding hotels with available rooms.

Car hire was booked directly through Budget's website at a cost of 428 € for 6 days rental. The car was a Renault 19 with AC. We also had to pay an additional driver fee, 27 €.

Both of us had visited Morocco before, so we planned for a relaxing week of birdwatching and digiscoping. One week should be enough to find some of the target birds that we had not seen on previous trips. We opted for the Agadir area, Sous Valley, Oukaimeden in the Western High Atlas and Erg Chebbi.

Itinerary

We took off from Copenhagen airport 9.30 6th April and landed in Agadir 12.00 (14.00 local time). Bus transport to Hotel Tivoli and check-in.

Unfortunately we chose the big scaled International Travel Maps Morocco 1:900000. This is not recommended due to many inaccuracies. Instead Michelin maps are to prefer.

Sous valley road - Oukaimeden 11:50-22:00

Due to erroneous maps and deficient road signs, our trip was delayed for at least 4 hours. Firstly, according to our map it should be possible to drive to Oukaimeden via Imlil, but this road does not exist! Just before Asni a big road-sign pointed to Oukaimeden. Unfortunately it was a dirt track and it was impossible to drive with an ordinary car. Arrived eventually in Oukaimeden and stayed at hotel De Lángoue Chez Juju costing 640 dirham for a double room, including toilet with shower and breakfast.

Sunday 9th April

Oukaimeden 7:40-12:50

Extremely strong winds and frequent showers made birding very difficult. Our main target bird here was Seebohm's Wheatear. At the hotel there is a guest book with recent bird sightings and according to this there had been 30-40 Seebohm's Wheatears around the day before. After hours of hard efforts we finally managed to find one obliging male.

Mature pine wood S Toufiat

Here we experienced an incident, when PAB took a dive and rolled c. 30 m down a stony slope. The reason for this was that the ground was covered with pine needles, and when walking in the slopes, this becomes extremely slippery. Luckily, nothing broke, neither bones nor equipment, just lots of grazes, bruises and an aching body. After visiting this place we drove to Ouarzazate where we arrived 19:30. We had a very good dinner at the Pearl hotel but checked in for the night at hotel Fint for 640 Dirham per person. The Pearl was fully booked, or was it PAB's battered appearance that discouraged them :-).
